

Not every planet in the Human Sphere can be categorized as safe for human habitation, but in the ongoing proxy war of the great powers of space any unexplored territories are ripe for the taking -- and the last thing anyone wants is your enemy to gain the upper-hand!

As part of your faction's forward exploration force, it is your duty to risk life and limb to claim these resources before your opponents can. Will your team survive? Or be consumed?

Round 1: Biotechvore

Round 2: Frostbyte

Round 3: Panic Room

This will be a 300-point, three round tournament with the CQB add-on.

\$10 entry fee, 11:00 start.

Registration will be available on the War Room Hobbies website
